To Whom It May Concern,

It is my pleasure to write a letter of recommendation on behalf of Paniccia Construction Corp (PCC).

It was a pleasure to work with Mario Paniccia and his team on a challenging office renovation project which required phased construction in an occupied space. PCC became a key member of the pre-construction design team, offered practical ideas and solutions which were sensitive to the schedule and budget. Mario Paniccia's construction expertise was especially helpful during this phase of the project, garnering the trust of the client and design team.

During the phased construction period, PCC demonstrated an amazing willingness and ability to accommodate demanding deadlines, last minute design challenges and our construction requests. PCC's responsiveness to these issues allowed the project to remain on schedule and within budget.

PCC's commitment to the client, design team and overall project goals was outstanding. This dedication resulted in a high quality construction project that we were very satisfied with the renovated office space.

I highly recommend the selection of PCC for your next project. I am certain that your company would experience this same level of expertise and service that USI Connecticut experienced.

Sincerely,

John J. Klecha
