RE: **Letter of Recommendation**
Paniccia Construction Corporation, LLC

To whom it may concern:

It is with great pleasure that I provide this recommendation for Paniccia Construction. I am Managing Partner and Architect with GastingWalker& in Kansas City, MO. We have a master services agreement with a national insurance company for design services across the United States. To date we have worked with Paniccia on the build out of three legal offices for this client.

The three projects were remodels and/or expansions of existing occupied office space. Due to the nature of the business and the office being occupied, scheduling and keeping the client informed was very important. Both were handled with great care and to everyone's satisfaction.

Their entire staff is conscientious and attentive. Their attitude is one of problem solving, not problem creation. All projects were done on schedule, on budget and with a competent and 'can do' attitude. In addition, the quality of work was excellent.

I highly recommend Paniccia Construction and I certainly look forward to working with them on future projects.

Sincerely,

A handwritten signature in black ink that reads "Donna Buck". The signature is written in a cursive, flowing style.
