Mr. Mario Paniccia, President
Paniccia Construction Corporation
214 Amity Road, Suite E
Woodbridge, CT 06525

Re: Recommendation Letter

To whom it may concern,

As a Senior Project Manager and Associate at Antinozzi Associates, I have
had the pleasure of working with Paniccia Construction Corporation on
many projects over the past twelve (12) years and can say, without
equivocation, that under Mario Paniccia's leadership, the Corporation is a
very capable and professional construction management company. Their
cost estimating, paperwork, project management, and quality control
processes are all of high quality, and their crews are well supervised,
responsive, and professional.

Through the construction process of our recently completed project
together, Paniccia Construction Corporation once again stayed on
schedule and met the deadlines they promised. Mario and his onsite
supervisor kept us informed how we were doing through the whole
process including on deadlines, budgets, and any challenges that were
arising. When unforeseen issues arose, Mario came to us with solutions,
and if there were changes needed, he came prepared with the proposed
amount for the change.

Regular site meetings were held with Paniccia Construction Corporation
and any concerns were promptly addressed by the onsite supervisor. The
quality of the work performed was excellent, with any deficiencies quickly
resolved to our satisfaction.

Once the construction process was completed, Mario circled back with me
and our staff to make sure we were happy with the final product.

We would recommend Mario Paniccia and Paniccia Construction
Corporation for any of your projects you may have.

Please do not hesitate to contact me if you have any questions regarding
this recommendation.

Sincerely,
ANTINOZZI ASSOCIATES, PC

José Imery
Associate, Senior Project Manager
